

Launch Fishers High School Fellowship

DISCOVERING AND DEVELOPING FUTURE ENTREPRENEURS

The Launch Fishers High School Fellowship's mission is to discover and develop future entrepreneurs. A group of students (must be a resident of Fishers) will be chosen to participate in a three-day Entrepreneurial Bootcamp hosted by Launch Fishers. At the conclusion of the bootcamp, students will interview with host companies for paid summer internships.

Program Details

- A group of Fishers high school students will be selected to attend a three-day bootcamp hosted and programmed by Launch Fishers (*Tuesday May 31, Wednesday June 1, and Thursday June 2*).
- On Friday June 3, students will participate in an interview day with host companies as a potential chosen host company. Students will be placed in internships via a dual-matching process.
- Student internships will run for 8 weeks, beginning on Tuesday, June 7 and concluding on Friday, July 29.
- Students will be paid \$15/hour (*\$7.50 from the host company and \$7.50 from Launch Fishers*). Students will work 20 hours per week for 8 weeks (total of 160 hours).

Host Company Guidelines

- You (the host company) and Launch Fishers will split the cost of hourly wages for your student. Launch Fishers will handle payroll and paperwork.
- Students must receive 20 hours per week of valuable work experience over the 8-week course.
- Students must attend 2 development events during the program: Wednesday June 29 (8:30am-10am) & Thursday July 21 (6:00pm-7:30pm).
- Pre-selection and arrangement/offer of employment ahead of the interview day is not permitted. Companies that are found to have negotiated and/or offered positions to students ahead of time may be dismissed from the program.

Program Cost

The cost for companies to host a fellow is \$1200 per student hired. Cost to participate in the program is a flat-rate (the number of student hours worked does not affect the price). Payment can be made in 2 installments of \$600 each or as a one-time payment of \$1200.
